## Acknowledgements

This book as compiled and typed by members for the Retired Senior Volunteer Program.

The compiler is deeply indebted to Anna Kate Rollin Pittman for the typig of the index.

## Preface

The compilation of a correct listing of all persons in the Lauderdale County, Mississippi Census of 1880 has been a difficult task because of the various types of handwriting and the quality of the microfilm. Every effort has been made to make this work as accurate as possible, but some errors and omissions are inevitable in a work of this type.

If the name which is being researched cannot be located in the index, the researcher should look for possible variations in spelling; such as Lide and Lude, Smith and Smythe, or Rollin and Rolling.

In reading the census, it is sometimes impossible to distinguish between I and J, L and S, M and W, N and U. Lide may mistakenly be indexed as Side or Syde.

## How to Use this Index

The index to the 1880 Census of Lauderdale County, MS is printed in two columns.

The first column lists in alphabetical order the name of the individual found in the original Census Record. The listing includes only those individuals who appear as heads of households or anyone living within the house who has a different last surname.

When given names are abbreviated in the Census and the abbreviation is clearly understood, the name is written out in the index.

The second column gives the page number of the original Census on which the name is located.

The page numbers on the microfilm is located at the upper right hand corner of the census and is the stamped number. Every other page is numbered. The number refers to the indicated page plus the next page.

In some cases, only one name was given in the original text.
